About Us

PANOPA established in 2013. It has the locations in different cities, Main Factory and Technical Support & Backup Manufacturing Office.

Manufacturing started in the same year In the factory. Technical Support Office opened in 2018 in "Gebze" City.

Factory located on 1600 m² closed area with 8 divisions. Manufacturing is spread in 6 divisions while the Project offices are in 2 divisions.

PANOPA is a project and service oriented engineering company. All kind of electrical enclosures needed in the fields of electricity production, transmission and distribution are in our area of interest.

We provide Design, Project Planning, Field Survey, Manufacturing, Electrical Connection, Maintenance/Repair, Testing and Commissioning services.

Main production area of **PANOPA** is variety of Control Panels for "**POWER, DISTRIBUTION and DRY Type Transformers**".

Beside we make different cabinets such as Machine Automation projects Panels, Maintenance Panels of factories, Generator Control Panels and Telecom companies POWER DC distribution panels.

Made in Türkiye Enclosures

Social and economic development as our establishment policy from the first day we started production. Minimizing foreign dependency is our priority in all works.

Our primary goal has been to educate, train young generation and employ them under Panopa society to build up **PANOPA FAMILY**. Our desire is to work with this family for long years.

With the strength we derive from this family, we export our products directly or indirectly to more than 50 countries in all continents and we are always working for the future.

Quality Certificates

**FIRST AND UNIQUE
IN TURKEY**

Panopa aims to work with all international companies as well as local companies based in Turkey.

**ASSEMBLING ENCLOSURES FOR
USA AND CANADA IN LINE WITH
UL CERTIFICATION**

In this direction, it has successfully integrated quality processes such as ISO9001, ISO14001, ISO18001, IPXX to production facilities.

Quality integration is a non-stop process. The desire to bring new certifications to PANOPA is the main driving force of the quality department.

UL

**NOTICE OF COMPLETION
AND
REQUIREMENT FOR IPI**

Dear Mr. Erhan Ertek,

Congratulations - based on the documents provided, you're now enabled to schedule the visit of the FUS-Inspector for the Initial Plant Inspection (Notice of Completion with IPI addendum) and to order appropriate UL-labels prior to his visit.

Please find, beside the Notice of Completion with IPI Addendum, your Notice of Authorization and your Final Report separately attached to the Email containing this information on hand.

For ordering the Labels please use the following Link below:
Website: www.ul.com
myul_resource_site@ul.com

To order the UL Standard labels, please use our Label Service Application through the www.ul.com portal where you can order and receive Standard labels, see your orders status update and download the order confirmation (packing slip).
If you are not the MyUL portal Master Stakeholder, you need to ask him/her to provide you the access to the tool.
You can visit www.ul.com for additional information and instructions.
Please contact us the Label Center (labelcenter@ul.com) for any question or support you may need.

Please provide the required information as follows:

Your UL Label Center	Europe
P.O. number	
Quantity	Please order batches as a multiple of 5 (e.g. 5, 10, 15, 20)
Label Description	see Table below
UL Part Number	Item Number (see Table 1 below) - usually "50000153" for Enclosed Industrial Control Panel (US only)
UL File Number	6222584
Company	PANOPA ELEKTROMEKANİK A.Ş.
UL Account Number	2881473
Street Address	Pasaalan Mh. 49. Sk No 3
City	Karais, BALIKESİR
State / Province / Region	Karais, BALIKESİR
Zip / Postal Code	
Country	Turkey
Phone	90 266 2450017
Email	erhan.ertek@panopa.com.tr
Contact	Mr. Erhan Ertek
Manufacturer (Shipping Address)	PANOPA ELEKTROMEKANİK A.Ş. Address: Pasaalan Mh. 49. Sk No 3, Karais, BALIKESİR - Turkey
Shipping Priority	Please click on the checkbox of your choice

PAHOPA
ELEKTROMEKANİK A.Ş.

PANOPA mainly works with transformer manufacturers. It also manufactures a wide variety of cabinets according to the needs of different customers. Turkish Telekom, Industrial Factories or the Ministry of Defense are a few examples.

Adaptation to processes in variable demands, design, production and post-production support has always been our goal.
